

OxyGeneo Pre Protocols

- ❖ Before each appointment, please let us know if there have been changes in your medical history, medications, or skin care products since consultation.
- ❖ No bleaching, tweezing, plucking, waxing, threading, using depilatory creams or electrolysis for 2 weeks prior to your treatment as this can make the skin reactive.
- ❖ Do not exfoliate the day of treatment - you may also be advised to stop using exfoliating creams and masks approximately three days prior to treatment.
- ❖ Please clean the treatment area before appointment, leave your skin FREE of cosmetics, lotions, creams, and perfume/colognes.
- ❖ No Accutane use within 12 months.
- ❖ Do not have unprotected sun exposure/sunburn, tanning beds, and sunless tanners 2 - 4 weeks prior to this treatment or future treatments. (No sunburn) Wear sunscreen every day.
- ❖ No Facial surgery within 12 weeks
- ❖ Ensure that you are not currently, nor have you been, on antibiotics in the past 4 weeks. Treatments cannot be done if you are on such medication.
- ❖ You have not used fillers or Botox within 4 weeks of any treatments in the treatment area.
- ❖ You will not come for treatment at any time if you have had a peel, chemical or other, microdermabrasion, laser/IPL, or light therapy, within 4 weeks. If you are not sure if your treatment will be a contradiction, please discuss with the technician.
- ❖ Do not use topical agents that may increase the sensitivity of your skin such as retinoids, exfoliants, topical antibiotics or acids 7 days prior to your treatment.
- ❖ Do not shave the day of the procedure to avoid skin irritation. If there is dense hair present in the treatment area, shave the day before you arrive for your appointment.

OxyGeneo Post Protocols

The OxyGeneo treatment has no downtime and generally no special post-treatment care is needed. However, it is recommended to use a hydrating mask/moisturizer after treatment, followed by sun protection cream with SPF 30 or more. It is recommended to not wear any makeup, but it can, however, be applied. Mineral makeup is recommended if needed.

- ❖ No exercise, body tx, hot tub, sauna, steams, swimming pools, massage until skin is back to normal for 24-48 hours post treatment. Use only lukewarm water for 24-72 hours.
- ❖ Avoid mechanical and chemical exfoliation for at least 72 hours post treatment.
- ❖ For best results avoid makeup for 24 hours after treatment. If you must wear makeup: apply light makeup, apply it with a clean applicator or clean hands.
- ❖ Please wait 7 days before resuming the use active ingredient/photosensitive medications/products like Retin-a (tretinoin), Renova, Differin, Tazorac, Ziana, Veltin, Atralin, glycolic acids or any other exfoliating agents, even a Clarisonic Brush or others if they have any of these active ingredients.
- ❖ Do not use fillers or Botox within 1 week post treatments in the treatment area.
- ❖ You will not have additional treatment such as peel, chemical or other, microdermabrasion, laser, or light therapy etc. for 3 weeks post treatment.
- ❖ NO bleaching, tweezing, plucking, waxing, threading, using depilatory creams or electrolysis for 2 week post treatment.
- ❖ The exfoliation process involved with the 3 in 1 Super Facial may increase your skin's sensitivity to sunlight. It is advised that you apply sunscreen with SPF 30+ to protect the new skin cells and to prevent damage to them.
- ❖ Keep your skin hydrated and use gentle skin care products.
- ❖ Prebook your next appointment - 4 weeks apart
